## Mosaic art

Mosaic art is one of the oldest art forms in the world. As early as 400,000 years ago, our ancestors assembled non-local stones and bones in such a way that the first works of art were created.

Especially in the Roman Empire, in Greece and in the Orient, mosaics were widespread before and during antiquity. Many floors, but also walls in residential buildings of an upper social class and of course sacred buildings such as churches and temples were decorated with mosaics and are still decorated today.

In the 21st century, mosaics are enjoying a renaissance in Europe and adorn restaurants, hotels, bars, lounges, and wellness facilities in particular with their noble, timeless elegance.

*“Mosaic art is my passion. When I close my eyes, I constantly see colors and shapes that I want to implement immediately as a mosaic. The ideas come from the very bottom of my soul. It fulfills me deeply when my clients have tears of joy in their eyes when I hand over a commissioned piece of artwork. Love Solaris”*
